

Don't Worry, Be Happy

- 1) Your mind and emotion hold the key
They're the things to set you free
What 'er the day
What 'er the night
Fulfil yourself with love, joy and delight

- 2) Sadness and worry
Gets you nowhere at all
Just up the wall
What 'er the day
What 'er the night
Fulfil yourself with love, joy and delight

- 3) With faith in the Lord
And determination
You may live a long and happy life
What 'er the day
What 'er the night
Fulfil yourself with love, joy and delight

- 4) Let people come first where 'er you go
That's a thought
All people should show
What 'er the day
What 'er the night
Fulfil yourself with love, joy and delight

Love, joy and delight
Love, joy and delight
