

My Eyes Delight Tonight

- 1) We've now been dating each other for a while
Bringing to each other a smile
And one thing for ages I definitely did miss
Is our quite regular true kiss
When I'm with you tonight
I hope my eyes will show delight

- 2) When together safe and sound
We're always eye to eye to be found
And based under cover
Showing some love of each other
When I'm with you tonight
I hope my eyes will show delight

- 3) We really to each other play a part
Showing one another a very warm heart
Deeply exchanging the power of love
From Heaven above
When I'm with you tonight
I hope my eyes will show delight

- 4) Now quite regularly we'll share romance
Together have a love, kiss and dance
And just about every night and day
Take one another's breath away
When I'm with you tonight
I hope my eyes will show delight

- 5) We'll now hopefully be together forever
Living apart again never
And sooner than it seems
Be fulfilling both of our dreams
When I'm with you tonight
I hope my eyes will show delight
