

Silence

- 1) Now time is really getting on
Remembrance Sunday is here
So round the Memorial stand
We are with many a tear
A moment's silence will be needed once more
For those people who died for us at war

- 2) At war a lot was done
Which weren't much fun
Many a soldier gave their life
For many a child and wife
A moment's silence will be needed once more
For those people who died for us at war

- 3) In battle there was much blood
With our army doing what they could
Fighting for our nation
Unable to have any hesitation
A moment's silence will be needed once more
For those people who died for us at war

- 4) There's a lot to be remembered
Of many others
People who armed went to battle
To save their Fathers and Mothers
A moment's silence will be needed once more
For those people who died for us at war

- 5) You'll be thought of for many years to come
You very large sum
Those of you who gave your lives to win the war
Which we needed many a weapon for
A moment's silence will be needed once more
For those people who died for us at war
