

## Together Walking Along The Shore

1. When the sun is out and the sky is bright  
I always sing to your delight  
Even keep my voice quite loud  
When passing by is a very dark cloud  
I love walking with you along the sea shore  
Where we've been many times before
2. Singing along with a very nice tune  
I always have you and others over the moon  
Whilst we travel both near and far  
I often also play my guitar  
I love walking with you along the sea shore  
Where we've been many times before
3. There's plenty a bird singing high in the sky  
To clearly be heard without a lie  
As I'm singing and after promotion  
They're always flying over the ocean  
I love walking with you along the sea shore  
Where we've been many times before
4. There's many a cobble stone in the sand  
Which I throw into the sea using my hand  
Where some-times we try to keep afloat  
As sailing together in our nice boat  
I love walking with you along the sea shore  
Where we've been many times before
5. We've known each other for ages  
Gone through a lot of different stages  
And are forever hand in hand getting on  
Together often strolling along the prom  
I love walking with you along the sea shore  
Where we've been many times before
