

Defender Denis Irwin

- 1) Denis Irwin in summer 1990 signed for Man U
And was to do very good for me and you
In what many following seasons had to show
Playing as a left back defender he had an extremely good go
- 2) Denis showing everything a defender correctly should do
Managed to win plenty a Trophy with Man U
He won seven Premiership Trophies with them
Doing well time and time again
- 3) Denis with his colleagues at Man U did all he could
And Won three FA Cups with them just as he should
He also won the European Championship League with Man U in 1999
With everything for him, Sir Alex, and lots of others that season going fine
- 4) Denis scored a total of thirty three goals for Man U
Whilst penalty-wise taking oh quite a few
He really successfully helped them out
And completely did that without a doubt
- 5) Denis left the red devils in May 2002
Having played five hundred and twenty nine times for Man U
With them and The Republic of Ireland he did very well
In what his entire football career story had to tell
