

Defender Gary Pallister

- 1) Gary Pallister signed for Man United in August 1989
Where his long term defending career was to go quite fine
Him and Steve Bruce did very well together on the whole
Keeping the opposition from scoring too many a goal
- 2) Gary was to prove a pacy defender yes
With others form one of the greatest defensive partners or so I guess
Being a chap quite extremely tall
He also often in the opponents net headed in the football
- 3) After really impressing quite a few
Gary got 'PFA Player of The Year' in 1992
And his total contract at Man United was to go very well
In what the next few years completely had to tell
- 4) Gary won 4 Premiership Titles with Man United
Which had Sir Alex, and all the fans, with him delighted
Won 3 FA Cups and the 1991 European Cup Winners Cup too
Was with his talent to please both me and you
- 5) Gary finished at Man United in July 1998
Having him done very well there without any debate
He'd come of very big assistance
Both there and with 22 England Caps covered oh quite a distance
