

Defender Rio Ferdinand

- 1) Rio Ferdinand had his debut at Man United on 22nd July 2002
Starting then in centre-back, defence, he had quite a lot to do
As time has deeply had to tell
Has played quite extremely well
- 2) To ensure he doesn't get the sack
Rio has given a consistent good performance at the back
Bringing to Sir Alex Ferguson a smile
He's been one of the world's best defenders for a while
- 3) Getting for Man United lots of games going fine
Rio's captained the team time to time
Helping them win 5 Premiership Titles yes
Valuing all his medals or so I guess
- 4) Despite having a bad injury on plenty an occasion
To keep playing at Man U Rio's needed not much persuasion
He helped them win the European Championship in 2007/2008
Performing very well with no debate
- 5) As well as do very good for Man United
Being a defender and temporary captain for England Rio's been delighted
Having appeared on the pitch for his club and country for many a year
Rio deserves from his fans and colleagues a very big cheer
