Goal-Keeper Edwin van der Sar

1) Edwin van der Sar to go on and keep their cup winning dreams alive
    Joined the club Man United as a superb goal-keeper in 2005
    To definitely many an opponent's big regret
    He often kept the football from going in the net

2) With Man United he won 4 Premiership Trophies yes
    Through him making a lot of great saves or so I guess
    Also doing quite well with no debate
    He had a Dutch International Career 1995-2008

3) Edwin with Man United won The European Championship League in 2008
    A game against Chelsea which via extra time and penalties went on really late
    With him being the penalty saving big hero
    Keeping the opposition's number of major cup wins that year to zero

4) Edwin was named 'The Best European Goal-keeper' for a while
    After him giving Sir Alex and plenty of others a very big smile
    Covering the net he was so clever and brave
    He deeply carried the nick name 'Van de Save'

5) In 2011 Edwin finished his career spell at Man United
    Who with his great gifted talent had been over delighted
    To find another goal-keeper to come of such big assistance
    The Manager would have to go oh quite a distance
