

How Do You Manage At Old Trafford?

- 1) In 2012/13 The Premiership was last won by Man United
With Sir Alex Ferguson on his retirement making the fans once more delighted
Then before much time had gone
A search for an experienced successor was on
- 2) With some fans giving hopeful rejoice
Talented Manager David Moyes was the next choice
Though he was only there for a short while
With him not bringing all the fans and owners any achievement at which to smile
- 3) Having deeply helped lots of clubs and The Netherlands out
Louis Van Gaal was the next choice without a doubt
In the first season under him Man United won nothing
Then in 2015/16 them winning The FA Cup was very chuffing
- 4) The Man United owners were still unsure about Louis Van Gaal though
And decided to give yet another experienced Manager a go
Then as a true matter of fact
In June 2016 Jose Mourinho signed a contract
- 5) Now we'll have to see what Jose can do
Hopefully get plenty a good win for Man U
I'm sure through this summer he'll look near and far
To sign many a promising football trophy winning star
