

Midfielder Michael Carrick

- 1) Michael Carrick joined Man United in August 2006
Was soon to get up to all his great midfield tricks
In what the future had to tell
Together with Paul Scholes he played very well
- 2) Michael at winning many a trophy with Man United had a go
Became one of the most sophisticated and classy passing midfielders or so
He's now had 273 appearances for Man United yes
Though suffered plenty an injury over the years or so I guess
- 3) Michael's won 4 Premiership Medals with Man U
Played completely well in front of me and you
Also won the European Championship League in 2008
Which he enjoyed doing with no debate
- 4) Michael with Man United even won the Club World Cup in 2008/2009
Getting on with his team colleagues really fine
He's also so far scored 19 goals for Man United
Which has made Sir Alex with him quite delighted
- 5) Michael whose now signed with Man United a new contract
Has also had 22 England Caps as a true fact
To each of these teams has come of deep assistance
Played in midfield covering oh quite a distance
