

Midfielder Nicky Butt

- 1) Nicky Butt was born in January 1975 yes
Before at school he quite enjoyed playing football or so I guess
He was to join Man United in 1992
To be cheered on by me and you
- 2) Nicky was to play as a good midfielder for a while
Bringing to all his colleagues and fans a big smile
Shaking all the different opposition up
He helped Man United win plenty a cup
- 3) He became an 8 times Premiership Title, and 1 off Champions League winner
Proving, like all the others in Man U, he was not just a beginner
They together 3 times won the FA Cup as-well
He really had a great time in what his career had to tell
- 4) Nicky having also won the Intercontinental Cup with Man United
With his 12 years with them had been delighted
Then he was at Newcastle United to have a go
Followed by taking as his wife Shelley Barlow
- 5) Nicky, after also playing for England, in 2011 did retire
Just before as a Manager he saw if anyone did him require
He then went on to help Man United under 23's out
Whilst now he's their 'Director of Development' without a single doubt
