

Midfielder Roy Keane

- 1) Roy Keane signed for Man United in August 1993
Was soon to be one of the best midfielders seen by you and me
As in time things really had to tell
For this club he did quite extremely well
- 2) Roy with Man U picked up 7 Premiership Medals yes
Did very good with them or so I guess
Playing in midfield better than quite a few
He in his red devil career gained 4 FA Cup Medals too
- 3) Roy took over as Man United Captain in the 1997/98 season
Which happened for plenty a good reason
Without the slightest bit of doubt
He gave many colleagues and referees a loud instructive shout
- 4) Roy helped Man United win the treble in season 1998/99
But with him missing both the FA Cup and European Championship League Final
Not everything went for him quite fine
Yet in the year 2000 as he got 'Footballer of The Year'
And 'Players' Player of The Year'
He deserved from all his colleagues and fans a very big cheer
- 5) Along with his playing hard at Man United
Roy with his close on 70 caps for Republic of Ireland was quite delighted
And having done well with all his football control tricks
He began his Managerial career with Sunderland in August 2006
