

Striker Wayne Rooney

- 1) Wayne Rooney after starting his great career at Everton At a young age
Was soon to at Man United make many a sports page
As lots of time deeply had to tell
With the red devils he played very extremely well
- 2) Wayne started at Man United in August 2004
Where he was to play better than he'd ever done before
That 1st season with them to be given many a cheer
He got rewarded 'PFA Young Player of The Year'
- 3) Wayne's now won 4 Premiership Titles with Man U
To be deeply congratulated by both me and you
Also won the 2007/08 European Championship League as time had to tell
Due to him and Cristiano Ronaldo together doing very well
- 4) Wayne as a superb striker helping Man U shake plenty of other teams up
Also in 2008/09 with them won the FIFA Club World Cup
He was definitely helping Sir Alex and Man United out
And doing that completely without a doubt
- 5) Wayne so far at Man United has goal-wise scored 181
Though I'm sure he'll beat the club record before much time has gone
He'll also for a while to England come of assistance
For both his Club and Country's team cover oh quite a distance
