

A Very Interesting Poem

- 1) In the morning after having a good night's rest
I put on my clothes including in winter a vest
I then had breakfast at it's best
Giving my egg, sausage and bacon frying a test

- 2) To some money invest
I travelled a little bit west
With some other drivers on the road being a bit of a pest
One or two of them deserving arrest

- 3) Safe, at the end of my journey, feeling blessed
I walked past the houses and trees with many a bird nest
Then was becoming quite messed
By getting some bird dirt on my chest

- 4) Wanting in my account some more interest
At the bank I was then a guest
Sharing with the Financial Advisor a quick jest
Just before making another savings request
