

## All The Friendly Dogs

- 1) Friendly dogs have been around for ages  
Joined people at lots of different stages  
Wanted to be taken for a walk regularly yes  
Pleased to with owners stretch their legs or so I guess
- 2) They often for a meal, and sense of danger, bark  
Not letting their owners do nothing but lark  
And along with keep company me and you  
Enjoy playing with some other dogs too
- 3) There are golden retrievers, cocker spaniels, labrador retrievers, poodles  
And lots of other dogs going down the street  
Giving a friendly look to everyone they meet  
They've helped plenty out health-wise too  
Been trained as guard and guide dogs quite a few
- 4) Showing themselves to be very gallant  
Some dogs have done well on 'Britain's Got Talent'  
On stage performing just like they ought  
Splendidly remembering everything they got taught
- 5) There has been lots of films about dogs on TV  
'Lady and the Tramp', 'Lassie' and '101 Dalmatians' etc for people to see  
With them being 'man's best friend' forever  
Letting one another down at all never
