

## Avoid Dangerous Driving

- 1) You shouldn't show a bit of greed  
And really over-speed  
You'll only knock someone down  
As well as prove you're a clown
- 2) Drivers, also, shouldn't go in a dash  
They'll only have a crash  
And be disabled forever  
One hundred percent again never
- 3) You need to avoid the mistake  
Of too often over-take  
Also you're not using your head  
If you go through a traffic light on red
- 4) Through stupid driving many people die  
At which all relations cry  
By silly people having a drink and drive  
Many are no longer alive
- 5) So when driving be calm  
Please do no harm  
Or you'll really be for life sorry  
Whether you drove a car, bike or lorry
