

Be Happy While Around

- 1) Happiness holds the key
It's the thing to set you free
Sadness and worry gets you nowhere at all
Just up the wall
One day at a time
Never decline

- 2) You'll have your dreams come true one day
Don't go astray
You'll get there in the end
Never descend
When your dream comes true
It'll be nothing but joy for you

- 3) It's lovely to in this world be around
Living safe and sound
Good sun and countryside found
Many places to be bound
With some lovely natural sight and sound
With and without some animals around

- 4) Wherever you go you can find a friend
So never with loneliness descend
You can find someone to love
If not other people Lord God above
So never give your life in
For that's committing a sin
