

Betting On The Horse Races

- 1) Whatever your bet
You will regret
The horses you choose
Usually lose

- 2) It isn't funny
Often losing money
Putting too much on a race
Is a very big disgrace

- 3) Only when the odds are low
Can you have a go
And it often depends on how races begin
As to whether you will win

- 4) Some people look at the papers each day
Pick many a horse without delay
I don't know how they handle
Having so much a gamble
