

Bull's-Eye

- 1) Me and a friend went to watch some darts competition taking place
Watch our local club's side having another darts club to face
We sat at a pub table with a good view
And got prepared to see what our club's dart side could do

- 2) On one occasion one of our club's side with the dart hit the bull's-eye of the board
And the crowd came out and applaud
It was an excellent shot with which to win the game
Whilst to the loser it was a shame

- 3) One of our club's side got treble twenty three times on the trot
Got the highest possible darts score of the lot
He went and retrieved his darts with a smile
He'd not got that maximum score for oh quite a while

- 4) After a bit the darts competition came to an end
The result was a happy one to me and my friend
Our local club's dart team had gone and had the darts match won
Watching it all had really been fun
