

Childhood

- 1) In childhood we are all very young
And some of us cheeky with our tongue
Cause a lot of trouble
Make our parent's and teacher's annoyance double

- 2) We are always messing about
And that's without a doubt
Playing with many toys
With different girls and boys

- 3) We sometimes go to the playground
Where there's lots to be found
Many a different thing
From a slide to a swing

- 4) We reach the age of going to school
Where we prove we're not a fool
Learn more after more
Heading for the career door

- 5) As our young years go by
We have many a laugh and cry
Brought up by many others
Including our teachers, fathers and mothers
