

Darkness

- 1) When we go out late at night
It's not very bright
The sunshine has gone
And not as many lights on

- 2) In the sky, near and far
There is quite many a star
Which in the darkness shine
Over your head and mine

- 3) When in the darkness I did drive
The scene wasn't as alive
There was only a dark view
Of nice places that I knew

- 4) At home we all rest in the dark
Sometimes hearing a dog bark
And without a bit of light
Sleep all through the night
