

Disability Equality

- 1) Although it's not always easy to make out
Lots of people have disabilities without a doubt
Searching for help without any delay
They're suffering with difficulties day after day
- 2) Whilst some people's health problems are obviously on view
Lots are to be totally unseen too
As-well as physical there's a lot of mental health problems had
Which every so often make sufferers a little bit sad
- 3) At 'Disability Equality North West' we try and come of assistance
Help people with any health problem cover oh quite a distance
Time and time again
We've helped them make a benefit claim
- 4) To get everything for disabled people going quite fine
We now run 'Disability Hate Crime'
So if ever you think you've had some form of discrimination
Feel free to contact us with no hesitation
- 5) Although not always up-to lots and lots of employment
All disabled people should in life have some enjoyment
So many support charities are being set up in the UK
Where you can share your problems with no delay
