

Doing Some Shopping

- 1) Some people are always shopping
Whilst their money is dropping
Many men often curse
Of the women using up their purse

- 2) They like to shop here and there
Getting something from everywhere
I'm not being very funny
When I say they spend their money

- 3) Mostly bought are clothes
As everyone surely knows
Which are always to be worn
In that evening or next morn

- 4) Often needed are shoes
Which are hard to choose
But people never face defeat
And get some for both their feet

- 5) Having gone round town, people are often tired
But now got everything they required
They've never been stood still
Except when queuing at the till
