

Doors

- 1) At my house there's many a door
Some which have not been there long for
Two fitted to my house just a year or two ago
Main ones, which have me into my home to and fro
- 2) There's a door at 10 Downing Street
Which has Policemen guarding as a feat
In tall buildings people walk through many a door
On the ground to top floor
- 3) People go through doors day after day
Both at work and where they stay
Toing and froing
Always into another room going
- 4) In towns, through shop doors people walk
To then do some purchase and talk
At night most doors are locked
To safely keep everything inside stocked
- 5) Some people come to many doors each day
Such as Newspaper-boys on their way
Or Postmen going down the street
Getting worn off their feet
- 6) Yes everyone goes through many an archway
Day after day
Always going on their way through a door
More and more
