

Flying Aeroplanes

- 1) The pilots are flying in their plane
Time and time again
Don't ask me why
But they cover all the sky
- 2) Just like they ought
They take off and land at the airport
Where many people get on
Before the plane is gone
- 3) With an engine that's not too loud
The plane flies over many a cloud
Where one thing you can do
Is have a good view
- 4) On the plane some people it does please
To fly overseas
With the pilots getting a promotion
For flying over the ocean
- 5) Wherever it is they have gone
The pilots each have a helmet on
And whilst doing very much
In the airports keep in touch
