

Get Rid Of Prime Minister Sir Keir Starmer

- 1) Sir Keir Starmer since winning the last General Election
As Labour Leader and PM has had nothing going to perfection
Instead has built up a UK public for him hate
And that's without any at all debate
- 2) Starmer has had no high gloat
Since losing further elections vote after vote
Now almost half the Labour MPs want him out
And that's without a single doubt
- 3) Making all the different front pages
Starmer is now the most unpopular PM for ages
Everyone seeing voting for him a big regret
And now want someone like Andy Burnham to his position get
- 4) So Starmer without any delay
Should step down from being PM on this day
Then this country will stop facing as much a loss
And find a much wiser 10 Downing Street boss
- 5) Starmer has brought to this country a big frown
At some stage bringing both welfare and business support down
Hopefully soon he'll pack in with no hesitation
And there will be lots and lots of deep celebration
