

## Going To The Doctor

- 1) I recently went to see a GP  
About a problem had by me  
I don't know about you  
But I was worried of the flu
  
- 2) The Doctor gave my blood test a go  
To see if it was high or low  
He said it was quite ok  
And was to on my prescription stay
  
- 3) Although he had lots of hope  
He checked me with his stethoscope  
And found my heart was doing ok  
As it was hopefully to stay
  
- 4) He then gave me an injection  
To keep me from flu infection  
And some medicine for my cold  
Which to take regularly I was told
  
- 5) I then to the Doctor said goodbye  
He'd helped me out, no lie  
And then I went on my way to see
