

Happy New Year

- 1) Without a single lie
Christmas has just flown by
Now to be greeted with a cheer
It's reached the New Year

- 2) To bring to your life a good solution
You now need to make a New Year's resolution
And instead of once more be a regretter
This year things could get much better

- 3) In January you sometimes need to get much bolder
With it getting a little bit colder
Though in your heated-up car
You can still travel near and far

- 4) Each pub and restaurant now go a little bit dead
With a wait for your next wages a long month ahead
Because without a single doubt
Through Christmas, and the early year sales, of money we all run out

- 5) In the shops having made an enquiry
Lots of people get a calendar and diary
And intending to do what they can
For the year ahead make a positive plan
