

## Heavy Rain and Strong Winds

1. With the weather not going at all like it should  
Over the last few months England and Wales home's  
Have had many a flood  
Yes completely unlike it ought ta  
Plenty a house has been completely full of water
2. Bringing lots of upset to people yes  
There's needed to be lots of house evacuation or so I guess  
Because in Devon, Cornwall, Wiltshire and Worcestershire  
There's been wind and heavy rain  
For months continually time and time again
3. From the different rivers more and more water has come ashore  
Than has ever really taken place before  
With the number of Farms damaged quite a few  
Lots of roads have needed to be closed to most traffic too
4. With the Flooding minister Richard Benyon very late coming out  
He was greeted by plenty an angry shout  
Whilst the water has been flooding oh quite a distance  
The mean government for a while had not at all come of assistance
5. Now without a single bit of doubt  
The Army's rapid inspection of flood protection needs to be carried out  
Because to bring back a smile to each affected person's face  
We require to prevent anything like this from ever again taking place
