

## In Bed At Night

- 1) I've laid down my sweet head  
Sleeping on my pillow in bed  
And had plenty a snore  
Like many times before
  
- 2) And so it does seem  
I've had very many a dream  
Some very good  
And some more scary than they should
  
- 3) I've slept all through the night  
Sometimes with a bit of fright  
Occasionally woken by lightning  
Which is very frightening
  
- 4) I always wake up in the morn  
And have a little yawn  
Then with a bit of begrudge  
I try and budge
