

## Law And Order

- 1) In solving crimes, the person most effective  
Is the bright detective  
They're always looking for a clue  
Through me and you
- 2) I have a slight hint  
They often search for a fingerprint  
And the person to whom it does match  
Is the one they want to catch
- 3) They try to solve crime  
Time after time  
And arrest the guilty one  
Wherever they have gone
- 4) The naughty one is then taken to court  
Where the jury does what they ought  
And they make the very big decision  
Of how long they're to spend in prison
- 5) The criminal is then taken away  
To behind the bars stay  
Because the Law never faces the defeat  
Of trouble on the street
