

## Living With Your Parents

1. Your parents get you up early each morning  
Whilst everyone is still yawning  
They then have you having breakfast at the table  
Before going to school or work you are able
2. They then greet you at teatime  
Asking if your day has gone fine  
Hoping to hear you've worked a great deal  
Before you now have your evening meal
3. After eating our food not much too late  
With our parents checking we've cleared our plate  
To furthermore grant all their wishes  
We have to help them to do the dishes
4. Your parents are always trying to catch you out  
And I say that without a doubt  
They continually have a very big fright  
That you're going to do nothing that's totally right
