

Me And My Horse

- 1) I feed my horse on hay
On each and every day
This I am most able
To do in it's stable

- 2) I then go for a ride
In the countryside
And sometimes whilst sat on its saddle
The horse has a slight paddle

- 3) Yes we often go by the river
With a bit of a shiver
Because as I've been told
It is quite cold

- 4) My horse used to have a good pace
And win many a race
Although not as fast as a car
It galloped very far

- 5) Despite it being old today
It is still ok
And with it feeling fine
We still have a good time
