

Members of Parliament

- 1) When it comes to Prime Minister David Cameron of The Tories
He tells very silly made up stories
Just being generous to many an MP
Whilst not caring a toss for you or me
The leaders of this country have a very cold heart
And in ending poverty don't play a part

- 2) Most of the Tax that we pay
MPs spoil themselves with day after day
They just show lots and lots of greed
Not bothered about anyone-else's need
The leaders of this country have a very cold heart
And in ending poverty don't play a part

- 3) Our pay-rises never keep up with inflation
Which is always going up with no hesitation
As MPs only give us a 2 or 3% pay-rise
They double their own money with no big surprise
The leaders of this country have a very cold heart
And in ending poverty don't play a part

- 4) Whilst we're only allowed a few weeks leave
They have months off so I believe
With Parliament doing things their own way
Nothing's going to be ok
The leaders of this country have a very cold heart
And in ending poverty don't play a part
