

Off And On Power

- 1) As everyone surely knows
House power sometimes goes
Darkness we have to handle
By using many a candle

- 2) With electricity lines gone
Power we just can't put on
So on with life we go
Without a T.V. or radio

- 3) It's hard to see clear
Without the usual gear
We have to watch where we go
Because there's not much on show

- 4) Then when the power is fixed
We can do our usual tricks
Switch back on the light
To make it more bright

- 5) Also with the power regainment
We can have more entertainment
And celebrate that trouble's gone
By putting a film or album on
