

## Snapshots

- 1) Many a photograph tell a story  
The way you go about life and have success and glory  
Many a picture's taken of you when you're a child  
When you're still growing up and are tender and mild
- 2) Snapshots are taken a lot when you're on holiday  
For you to look back on what you're seen at a later day  
Some pictures put together on paper a lovely scene  
Such as some trees, flowers and other plants neighbouring a stream
- 3) Looking at photographs of you on holidays brings back a lot of the past  
Where you went long ago to where you went last  
You can look back to what you've done over the years  
Think of all the places you've been with happiness and cheers
- 4) The best photographs are usually put on display in a frame  
And in the house by everyone be looked at time and time again  
Some bring back memories of many others  
People of the past in your life such as Grandfathers and Grandmothers
- 5) Photographs put together many people's history  
Without which what people themselves where like when young would be a mystery  
Cameras I reckon will be sold for many years to come  
The number of people buying and using them a very large sum
