

## Something Fishy Is Going On Here

- 1) Along the different coasts the fishermen are often going out to sea  
Wanting to catch lots of fish for you and me  
Having not much at all regret  
They throw into the water net after net
  
- 2) When the fishing nets are feeling full  
They're brought in with a big pull  
With the number of fish in it covering oh quite a length  
To bring it in the fishermen need lots and lots of strength
  
- 3) After the fish being lifted into the boat  
Inland they once more start to float  
They will quite soon reach the shore  
Which they've sailed in and out from plenty of times before
  
- 4) Having the fish been taken ashore  
The number of fish and chip shops purchasing them gets bigger more and more  
With the shop owners intending no defeat  
They'll sell them up and down the street
  
- 5) So now it's time for you and me  
To eat some fish and chips for tea  
Knowing that in supplying them fishermen cover oh quite a distance  
And in helping to feed us come of great big assistance
