

The Blackpool Illuminations

- 1) To quite a very big cheer
On the 4th September the Blackpool Illuminations are put on each year
Every year a different celebrity has the honour of switching them on
Watched in Blackpool by nearly everyone

- 2) After the lights being put on with no hesitation
There's lots and lots of deep celebration
With their opening making the Gazette papers front pages
They'll be being looked at for ages

- 3) People come from near and far
To drive through the illuminations by car
Whilst some others look at them as along Blackpool Promenade having a long walk
At the same time as together with others enjoying a nice talk

- 4) As the Blackpool front roads get quite full
In the illuminations are shown plenty a quite different but good article
Which lots of children viewing them enjoy
At the same time as playing with a toy

- 5) Everyone to go to Blackpool Illuminations has to remember
They're only on until the 8th November
Forming quite a bright and entertaining view
To be enjoyably seen by me and you
