

The Bright Yellow Sun

- 1) There's a bright yellow sun in the sky
Which is very warming, no lie
That when, in the summer, comes out
Many people enjoy without a doubt
The yellow, yellow sun
In which we can have some fun

- 2) When the weather does go fine
Lots of people have a good holiday time
Not making a single mistake
Most families take a nice break
The yellow, yellow sun
In which we can have some fun

- 3) People travel by boat and plane
Time and time again
Travelling to many countries abroad
That they can comfortably afford
The yellow, yellow sun
In which we can have some fun

- 4) Pleasant days are wished for forever
With sunshine being the most popular weather
In which we can have enjoyment and delight
Each summer day and early night
The yellow, yellow sun
In which we can have some fun
