

## The Children's Playground

- 1) Many young children are regularly to be found  
At the nearest local park playground  
Where with everything going quite fine  
On all the different amusements they have a good time
  
- 2) Whilst having a small sing  
The boys and girls enjoy using plenty a swing  
And then without a single doubt  
They spin round on the roundabout
  
- 3) Some of the children with no fear to hide  
Quite often go down the slide  
Also some of the time  
They on certain items have a little bit of a climb
  
- 4) Without much need for a frown  
Kids on the seesaw go up and down  
When the weather is doing ok  
Young boys and girls go to the park with no delay
