

The Cowboys

- 1) There used to be many a cowboy in the west
Facing a big test
On the saddle of their horses
They galloped very long courses

- 2) With duties together shared
They handled plenty a herd
Keeping them together
Whilst travelling forever

- 3) Occasionally without any fun
They all had to use their gun
Such as when Indians caused a raid
And made all the cattle afraid

- 4) Also with a bit of fright
In some towns there was a gunfight
Seeing like other times before
Who was quickest on the draw

- 5) Sheriffs were also once called for
When there was many an outlaw
There really was a lot of western battle in the past
Though it's now over with at last
