Cutting and styling people's hair without any delay  
Although only for a few  
They sometimes dye hair a little too
2. To bring to them a smile  
The ladies have many a different hair style  
Going time and time again  
They take much longer to see to than the men

The barbers different hair shavers and scissors use  
Leaving customers to look in the mirror at a reflection  
Of how everything is being done to perfection
4. In what time at the barbers has to tell  
Some people have their hair washed as-well  
Then without a single bit of a lie  
They're given a quite gradual blow dry
