

The Hot Summer

1. Now it's reached the summer time
There's need for a glass of wine
Because it's always over hot
Stay cool we cannot
2. In the office we do what we can
Using many a fan
Also have many a lolly
To try and stay jolly
3. With such a clear sky
We're all sweating, no lie
The sun is so bright
It's warm day and night
4. I'm also not being a liar
When I say we all often tier
Going everywhere in the office, in the heat
Whilst getting worn off our feet
5. We regularly have some water
Just like we ought ta
Having something fresh to drink
To help each of us think
