

The Knights In Shining Armour

- 1) All the Knights of the round table
At good war fighting were able
When galloping on horses down the field
They used many a weapon and large shield

- 2) Through each day and night
They had many a sword fight
For the King having plenty a battle drama
Whilst fully dressed in very good solid armour

- 3) Lots of soldiers in a castle did mostly live
Which a very good service they did give
They together tried extremely hard
To give it and the Royal owners good protective guard

- 4) Plenty a weapon was used overall
Including the time to time firing of a dangerous cannon ball
With the brave soldiers doing totally everything
To completely deserve being knighted by the King
