

The Nurses Busy At Work

1. On the whole many a nurse
Was often giving a curse
After at work losing her purse
Which made things a little bit worse

2. But never intending to descend
They'd usually find it in the end
With a hand from a friend
Bringing to their happiness a nice mend

3. Then to be deeply applaud
They'd once more be busy on the ward
Never at all to be ignored
Their hard work to be adored

4. In the different wards they help lots of patients out
And do that without a doubt
Never giving anyone a shout
Even if they were to see a patient or colleague being a lazy lout
