

The Staircase

- 1) With many a different staircase you can go up and down
Showing on your face a smile or a frown
And whilst trying to never decline
You can take everything one step at a time

- 2) Having made it all the way to the top
To gain your breath you need to for a moment stop
Then on the very top floor
You can give each room a vacuum clean once more

- 3) At the top of your building you also have a good view
And of your neighbours can see oh quite a few
They're all to be seen near and far
Busy in the garden or cleaning their car

- 4) When going down seeing to floor after floor
You get tired once more
But if in your house you don't want a mouse or lots of dust
Clean it all quite regularly you really must

- 5) Once all the total cleaning is complete
In the living room, on the ground floor, you can put up your feet
And having workwise been put to a big test
Whilst having a brew, and watching TV, you can at last have a rest
