

Watching Sport On TV

1. Lots of different sports on TV
Are often watched by me
What I like most of all
Is seeing Man United playing great football
2. In summer to keep me from being a menace
I often spectate Wimbledon tennis
Where to bring a smile to my face
Andy Murray often plays an ace
3. I enjoy watching snooker too
In which break-wise there's usually quite a few
Many famous sports people using a cue
To deeply entertain both me and you
4. I occasionally see badminton on TV
That is also sometimes played by me
There's plenty a rally had in this sport
With people returning the shuttle just like they ought
5. But as-well as keep track of sport on TV
It really should be played by you and me
Because without doing some regular exercise
We can each get unfit with no disguise
