

### What's The Weather Like?

1. After the News Cast each night  
We find out if the weather is alright  
There is a forecast day after day  
Though correct often they do not stay
2. Sometimes there's a lovely blue sky  
Lovely bright sunshine without a lie  
Which it's mostly like in spring and summer  
Although it is occasionally a little bit duller
3. Some stages in the year we see nothing but rain  
Time and time again  
Which is when you see many a lady and fella  
Walking round with a large umbrella
4. In Autumn and Winter is published plenty a cloud  
Also rain and sometimes thunder that's loud  
Towards Xmas there's often much snow  
Which lots of children to play in have a go
5. Oh well, whatever the weather  
You should let it get to you never  
Whether you find it to be sunshine or rain  
You ought to be cheerful once again
