

## 100 Years Of The Walt Disney Company

- 1) The Walt Disney Company was founded on the 16th October 1923  
Soon to publish lots of animation for lots of different people to see  
Mickey Mouse was one of the first cartoon characters yes  
Often with Donald Duck and Goofy having fun or getting in a mess
- 2) Walt Disney and his brother Roy O. Disney first got this on its way  
Doing lots and lots of cartoon drawing with no delay  
Setting up an American Company that is now 100 years old  
Or so, in October 2023, everyone worldwide was told
- 3) The Walt Disney Company, later called Disney, produced many an animation  
With not a slight bit of hesitation  
Starting with 'Snow White and the Seven Dwarfs' and 'Pinocchio' yes  
Followed by 'Dumbo' and 'Bambi' or so I guess
- 4) Later lots of proper films got put together too  
'Mary Poppins', 'Chitty Chitty Bang Bang' and 'Bedknobs & Broomsticks' to name but a few  
Which continued to be made for ages  
Regularly going through all the different stages
- 5) Disney films and animation are still being done today  
With its 100th Anniversary, last year, to be given a big 'hip hip hurray'  
Hoping for it, and the population, it will continue for quite a while  
Bringing to all the different spectators a very big smile
