

## Birmingham 2022 Commonwealth Games

- 1) From the 28th July to the 8th August the Commonwealth Games 2022 took place  
With, in Birmingham 'the Bull', an opening and closing ceremony to face  
During which lots of medals were won  
Through 72 participating nations having quite a bit of fun
- 2) Australia with 178 medals did the best  
And England with 176 doing better than the rest  
Who won 57 golds, 66 silvers, and 53 bronze medals yes  
Breaking their English Commonwealth Games record or so I guess
- 3) The overall coverage was shown on BBC Sport TV  
To be seen by you and me  
The first major international multi sports integrated event going fine  
Whilst having para and non-para games held at the same time
- 4) In the different racket, race, swimming and hockey sport  
The English gold medal winning going just like it ought  
Scotland, Wales and Northern Ireland gaining star medals too  
Being cheered on by quite a few
- 5) This was the first games to host more gold medals for women than men  
That might take place again  
With at the end of each event  
A national anthem showing what to the winner and their country it truly meant
